

CHAPTER 105

SOLID WASTE CONTROL

105.01 Purpose
105.02 Definitions
105.03 Sanitary Disposal Required
105.04 Health and Fire Hazard
105.05 Open Burning Restricted
105.06 Open Burning Prohibited

105.07 Littering Prohibited
105.08 Open Dumping Prohibited
105.09 Toxic and Hazardous Waste
105.10 Waste Storage Containers
105.11 Prohibited Practices

105.01 PURPOSE. The purpose of the chapters in this Code of Ordinances pertaining to Solid Waste Control and Collection is to provide for the sanitary storage, collection, and disposal of solid waste and, thereby, to protect the citizens of the City from such hazards to their health, safety and welfare as may result from the uncontrolled disposal of solid waste.

105.02 DEFINITIONS. For use in these chapters the following terms are defined:

1. “Collector” means any person authorized to gather solid waste from public and private places.
2. “Discard” means to place, cause to be placed, throw, deposit, or drop.
(Code of Iowa, Sec. 455B.361[2])
3. “Dwelling unit” means any room or group of rooms located within a structure and forming a single habitable unit with facilities that are used or are intended to be used for living, sleeping, cooking, and eating.
4. “Garbage” means all solid and semisolid, putrescible animal and vegetable waste resulting from the handling, preparing, cooking, storing, serving and consuming of food or of material intended for use as food, and all offal, excluding useful industrial by-products, and includes all such substances from all public and private establishments and from all residences.
(IAC, 567-100.2)
5. “Landscape waste” means any vegetable or plant waste except garbage. The term includes trees, tree trimmings, branches, stumps, brush, weeds, leaves, grass, shrubbery, and yard trimmings.
(IAC, 567-20.2[455B])
6. “Litter” means any garbage, rubbish, trash, refuse, waste materials, or debris.
(Code of Iowa, Sec. 455B.361[1])
7. “Owner” means, in addition to the record titleholder, any person residing in, renting, leasing, occupying, operating or transacting business in any premises, and as between such parties the duties, responsibilities, liabilities and obligations hereinafter imposed shall be joint and several.
8. “Refuse” means putrescible and non-putrescible waste, including but not limited to garbage, rubbish, ashes, incinerator residues, street cleanings, market and industrial solid waste and sewage treatment waste in dry or semisolid form.
(IAC, 567-100.2)

9. “Residential premises” means a single-family dwelling and any multiple-family dwelling.

10. “Residential waste” means any refuse generated on the premises as a result of residential activities. The term includes landscape waste grown on the premises or deposited thereon by the elements, but excludes garbage, tires, trade wastes and any locally recyclable goods or plastics.

(IAC, 567-20.2[455B])

11. “Rubbish” means non-putrescible solid waste consisting of combustible and non-combustible waste, such as ashes, paper, cardboard, tin cans, yard clippings, wood, glass, bedding, crockery, or litter of any kind.

(IAC, 567-100.2)

12. “Sanitary disposal” means a method of treating solid waste so that it does not produce a hazard to the public health or safety or create a nuisance.

(IAC, 567-100.2)

13. “Sanitary disposal project” means all facilities and appurtenances (including all real and personal property connected with such facilities) that are acquired, purchased, constructed, reconstructed, equipped, improved, extended, maintained, or operated to facilitate the final disposition of solid waste without creating a significant hazard to the public health or safety, and which are approved by the Director of the State Department of Natural Resources.

(Code of Iowa, Sec. 455B.301)

14. “Solid waste” means garbage, refuse, rubbish, and other similar discarded solid or semisolid materials, including but not limited to such materials resulting from industrial, commercial, agricultural, and domestic activities. Solid waste may include vehicles, as defined by Section 321.1 of the *Code of Iowa*. Solid waste does not include any of the following:

(Code of Iowa, Sec. 455B.301)

A. Hazardous waste regulated under the Federal Resource Conservation and Recovery Act, 42 U.S.C. § 6921-6934.

B. Hazardous waste as defined in Section 455B.411 of the *Code of Iowa*, except to the extent that rules allowing for the disposal of specific wastes have been adopted by the State Environmental Protection Commission.

C. Source, special nuclear, or by-product material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979.

D. Petroleum contaminated soil that has been remediated to acceptable State or Federal standards.

E. Steel slag which is a product resulting from the steel manufacturing process and is managed as an item of value in a controlled manner and not as a discarded material.

105.03 SANITARY DISPOSAL REQUIRED. It is the duty of each owner to provide for the sanitary disposal of all refuse accumulating on the owner’s premises before it becomes a nuisance. Any such accumulation remaining on any premises for a period of more than thirty (30) days shall be deemed a nuisance and the City may proceed to abate such nuisances in accordance with the provisions of Chapter 50 or by initiating proper action in district court.

(Code of Iowa, Ch. 657)

105.04 HEALTH AND FIRE HAZARD. It is unlawful for any person to permit to accumulate on any premises, improved or vacant, or on any public place, such quantities of solid waste that constitute a health, sanitation or fire hazard.

105.05 OPEN BURNING RESTRICTED. No person shall allow, cause, or permit open burning of combustible materials, where the products of combustion are emitted into the open air without passing through a chimney or stack, without first obtaining a permit and conducting such burning in accordance with the *International Fire Code*.

105.06 OPEN BURNING PROHIBITED. No person shall allow, cause, or permit the open burning of any combustible materials, including (but not limited to) yard or landscape waste, leaves, and tree limbs, except that the following shall be permitted:

1. Fire pits.
2. Fires used for recreational cooking purposes, i.e., camp fires or barbecues.
3. Fires related to scouting activities.
4. Fires celebrating school pep rallies.
5. Any fires used for recreational purposes shall comply with the following requirements:
 - A. The fire must be used for cooking, heating, recreation or ceremonies.
 - B. The fire must be contained within a fire ring or a device sold commercially for the specific purpose of containing a recreational fire. A fire ring is a continuous ring made of stone, brick, rock, metal or other non-combustible material not more than five (5) feet in diameter, which is designed to contain a recreational fire and impede the spread of fire beyond the ring. The fire ring will be placed at least 10 feet away from any man-made structure, tree, brush or high grass.
 - C. Fuel for a recreational fire shall consist of wood only (including commercially sold recreational fire logs) and shall be two inches in diameter or larger. This requirement shall not apply to twigs or other kindling reasonably necessary for the initial lighting of the fire.
 - D. Fuel shall be no longer than three (3) feet in length.
 - E. Fuel within the acceptable fire ring shall not set higher than three (3) feet above the base of the fire.
 - F. Recreational fires shall not be used for disposal of yard waste, leaves and/or twigs.
6. Burning of trees after clearing for construction with a permit issued by the Council.
7. Fires for prairie burns with permit issued by the Council.
8. Training fires set for the purpose of bona fide training of public or industrial employees in firefighting methods, provided that written notification is delivered to the City Administrator at least ten working days before such action commences. All asphalt, roofing, and materials containing asbestos shall be removed prior to the training fire.
9. Customary burning of logs and other wood products in residential fireplaces.

105.07 LITTERING PROHIBITED. No person shall discard any litter onto or in any water or land, except that nothing in this section shall be construed to affect the authorized collection and discarding of such litter in or on areas or receptacles provided for such purpose. When litter is discarded from a motor vehicle, the driver of the motor vehicle shall be responsible for the act in any case where doubt exists as to which occupant of the motor vehicle actually discarded the litter.

(Code of Iowa, Sec. 455B.363)

105.08 OPEN DUMPING PROHIBITED. No person shall dump or deposit or permit the dumping or depositing of any solid waste on the surface of the ground or into a body or stream of water at any place other than a sanitary disposal project approved by the Director of the State Department of Natural Resources, unless a special permit to dump or deposit solid waste on land owned or leased by such person has been obtained from the Director of the State Department of Natural Resources. However, this section does not prohibit the use of rubble at places other than a sanitary disposal project. "Rubble" means dirt, stone, brick, or similar inorganic materials used for beneficial fill, landscaping, excavation, or grading at places other than a sanitary disposal project. Rubble includes asphalt waste only as long as it is not used in contact with water or in a flood plain. For purposes of this section, rubble does not mean gypsum or gypsum wallboard, coal combustion residue, foundry sand, or industrial process wastes unless those wastes are approved by the State Department of Natural Resources.

(Code of Iowa, Sec. 455B.301, Sec. 455B.307 and IAC, 567-100.2)

105.09 TOXIC AND HAZARDOUS WASTE. No person shall deposit in a solid waste container or otherwise offer for collection any toxic or hazardous waste. Such materials shall be transported and disposed of as prescribed by the Director of the State Department of Natural Resources. As used in this section, "toxic and hazardous waste" means waste materials, including (but not limited to) poisons, pesticides, herbicides, acids, caustics, pathological waste, flammable or explosive materials, and similar harmful waste that requires special handling and that must be disposed of in such a manner as to conserve the environment and protect the public health and safety.

(IAC, 567-100.2)

(IAC, 567-102.13[2] and 400-27.14[2])

105.10 WASTE STORAGE CONTAINERS. Every person owning, managing, operating, leasing, or renting any premises, dwelling unit or any place where refuse accumulates shall provide and at all times maintain in good order and repair portable containers for refuse in accordance with the following:

1. Container Specifications. Waste storage containers shall comply with the following specifications:

A. Residential. Solid waste collection for residential properties will be provided solely by the contracting service provided by the City. Contractor will provide one container per household. Should the container need to be replaced, a new container will be provided by the contractor. A replacement charge, if any, shall be determined by the contractor. Any items that cannot fit inside the container must be separately tagged with stickers provided by the City at a separate fee determined by the contractor.

(Ord. 709 – Mar. 17 Supp.)

B. Commercial. Every person owning, managing, operating, leasing or renting any commercial premises where an excessive amount of refuse accumulates and where its storage in portable containers as required above is

impractical, shall maintain metal bulk storage containers approved by the City.

2. **Storage of Containers.** Residential solid waste containers shall be stored upon the residential premises. Commercial solid waste containers shall be stored upon private property, unless the owner has been granted written permission from the City to use public property for such purposes. The storage site shall be well drained and fully accessible to collection equipment, public health personnel, and fire inspection personnel. All owners of residential and commercial premises shall be responsible for proper storage of all garbage and yard waste to prevent materials from being blown or scattered around neighboring yards and streets.
3. **Location of Containers for Collection.** Containers for the storage of solid waste awaiting collection shall be placed outdoors at some easily accessible place by the owner or occupant of the premises served.
4. **Nonconforming Containers.** Solid waste placed in containers that are not in compliance with the provisions of this section will not be collected.

105.11 PROHIBITED PRACTICES. It is unlawful for any person to:

1. **Unlawful Use of Containers.** Deposit refuse in any solid waste containers not owned by such person without the written consent of the owner of such containers.
2. **Interfere with Collectors.** Interfere in any manner with solid waste collection equipment or with solid waste collectors in the lawful performance of their duties as such, whether such equipment or collectors be those of the City, or those of any other authorized waste collection service.
3. **Incinerators.** Burn rubbish or garbage except in incinerators designed for high temperature operation, in which solid, semisolid, liquid, or gaseous combustible refuse is ignited and burned efficiently, and from which the solid residues contain little or no combustible material, as acceptable to the Environmental Protection Commission.
4. **Scavenging.** Take or collect any solid waste that has been placed out for collection on any premises, unless such person is an authorized solid waste collector.
