The City of Carlisle Public Works has contracted with Central Asphalt to have Lexington Street, Pennsylvania Street from N. 4th Street to N. 5th Street, and part of N. 5th Street paved. Work will begin Wednesday, October 19, 2022, and should be completed by Friday, October 21, 2022.

Temporary “No Parking” signs will be placed along the curb. Please obey them. Vehicles maybe ticketed or towed if they prevent work from being completed.

One lane of traffic will be open at all time. Brief blockages may occur when equipment is being operated. Please drive cautiously in the work zone to prevent accidents.

Please be advised that a coat of tack adhesive has to be applied before asphalt is laid. If you drive over this it could cause staining to your vehicle or driveway. Try to avoid it if possible.

Thank you for your patience while this project is completed.

Tony Rhinehart,
Carlisle Public Works
