Discipline Procedures

In case of a discipline problem, the following steps are to be taken, in this order (depending upon the seriousness), until the problem is solved:

1. WARNING

The patron is informed of the rule violation and asked to stop the activity. Explain the reason for the rule and if they continue this behavior, they will have to sit out or, depending on the infraction, may be asked to leave the pool.

2. SIT-OUT

The patron is required to sit outside of the immediate pool area under the supervision of the roving lifeguard for 15 minutes. **AN INCIDENT REPORT MUST BE COMPLETED.**

3. REMOVAL

The patron will be referred to the manager or assistant manager, who will escort the offender out of the pool and determine the length of time (remainder of the day up to the remainder of the season) depending upon the seriousness of the offense. The cashier will be informed as to the name of the person being escorted out and the length of time. **AN INCIDENT REPORT MUST BE COMPLETED.**

The manager or assistant manager will notify the Parks and Recreation Superintendent whenever a patron is escorted from the pool. If the patron becomes violent, verbally abusive or refuses to leave when requested, contact the police. **THIS, TOO, MUST BE DOCUMENTED.**

The Parks & Recreation Superintendent will review all incident reports when submitted. If there are two or more incident reports regarding behavior of a patron, the Parks & Recreation Superintendent may further investigate the behavior. If the Parks & Recreation Superintendent finds the circumstances justified, they may revoke the patrons season pass and/or ban access to the aquatic center for a determined amount of time. If a patron disagrees with the decisions of the Parks & Recreation Superintendent, the patron may request in writing that the decision be appealed to the Parks Board (or City Administrator when the Parks Board cannot reasonably meet). The decision of the Parks Board (or City administrator when the Parks Board cannot reasonably meet) will be final.

Inclement Weather Policy

It is the responsibility of the pool manager and/or assistant manager to determine whether to open or close the pool due to inclement weather. The public's health and safety are the only considerations in making this determination.

1. The pool will be **CLEARED IMMEDIATELY** if lightening is visible or if severe weather warnings are in effect. All patrons who chose to remain will be requested to seek shelter in the bathhouse. At the discretion of the manager, if lightening does not appear again within one half-hour, the pool may be reopened.
2. If the **TORNADO WARNING SIREN** sounds, all patrons will be requested to remain at the pool and seek shelter in the bathhouse. All children unaccompanied by an adult and employees will be **REQUIRED** to do so.
3. The pool may be closed during rain if the lifeguards determine it is difficult for them to see the bottom of the pool or adequately perform their job.
4. The pool may be closed when the air temperature is not above 70 degrees and is not

increasing, subject to the discretion of the manager.

5. The pool may be closed whenever the attendance is less than 25 swimmers, subject to the discretion of the manager.
6. When weather conditions improve, the pool may be reopened. The manager or assistant manager will determine when conditions warrant reopening. All staff members scheduled are on call and should be able to report within 1/2 hour of being called back to the pool.
7. There will be no refunds of admission to swimmers due to early closure; however, rain checks will be given if the pool closes before 3:00 p.m.
